# Sprint 1—Project Backlog

*Ryan Carrigan, Bryant Conquest, Phil Speegle, Zack Withers*

---

**Sprint Goals:**

1. Allow a user to sign in or sign up using their student email and password

2. Create a backend for a feed and login purposes.

3. Work on finding user locations and determining which rec center to connect to and help to verify the user is a student there (if they're near the school).

4. Get in touch with the rec to see about integration and portal requests.

5. Design and implement feed for sports nearby and at certain recs of the user's choice.

**Sprint Backlog:**

- Learn Dart and Begin Research              Total: 10 hours ✓
- Allow User to Sign In                      Total: 3 hours ✓
- Hash Passwords                             Total: 2 hours ✓
- Create and Populate Database               Total: 5 hours ✓
- Find a User's Location                     Total: 3 hours ✓
- Design Logo                                Total: 2 hours ✓
- Design and Implement Feed                  Total: 10 hours ✓
